# **Departure from Tunis:**

# Excursion Museum of Bardo - Medina

Departure to the Bardo Museum and its superb Roman mosaics, one of the most important collections in the world

The Bardo museum is situated in the old palace of the bey, in what was the countryside before, and offers both itself and and the exhibits to be admired. The tour around the museum is a tour through Tunisian history, though dominated by Punic, Roman and Christian periods.

Visit of the Medina of Tunis. We suggest a guided visit through the winding streets of Tunis' old town, an opportunity to see the rich cultural heritage of old walled city and to discover the exquisite craftsmanship of Tunisia's artisans.

'Souk' is the Arabic name for market; 'medina' is the Arabic name for town. In Tunis today, the souk is also called medina. And there is a good reason: most of what once was Tunis is today like one enormous shopping centre and handicrafts factory.

#### Carthage - Sidi Bou Said

Departure to Carthage and remainders of the splendours of Tunisia's past. There will be

visits to the gigantic Punic Ports, the Antonin Baths, the Tophet as well as the Theatre.

Who has not heard of Hannibal and this city who dared brave the might of Rome? Now the ruins of both these great empires lay open to the sun and wildflowers. Declared a national monument the town of Carthage and nearby Salammbo abound in vestiges of the Punic and Roman empires, baths, dwellings, temples, shrines and the fabulous naval port of the Carthaginians.

For a thousand years, Phoenicians were masters of the Mediterranean and over 200 war ships and innumerable merchant vessels were

sheltered in the nearby port of Salammbo. At its centre the Admirals Island still exists

and archaeologists are reconstituting the pavilion with its shrine and docks. Next to the ports the ancient sanctuary of the goddess Tanit (Tophet) a quiet, shady square of hundreds of funeral steles. Continue to the Moorish village of Sidi Bou Said with its immaculate white and blue houses. The village has managed to preserve its charm and its peacefulness.

The most adventurous will have the opportunity to try the famous chicha (Waterpipe) Free time in Sidi Bou Saïd to sip a mint tea at Café Sidi Chabaane or stroll along the narrow streets to see the magnificent view from the cliff Return to the Hotel

#### **Ecological excursion**

#### Visit of the Site Thuburbo Majus

Visit of the national park Chaâmbi (Kasserine): created in 1980. It extends on a surface of 6723 hectares. Its summit with the same name with a 1544 meters height is the highest mountain of Tunisia. Chaâmbi belongs to the Tunisian dorsal. In full mountainous zone, the park is covered with forests sprinkled by a pluviometer which

oscillates between 400 and 450 mm/an in altitude and 250 mm/an in plain.

Contrasts of temperature, in winter the top is often covered with snow and in summer of the winds of the South blow with more 40°C, determine the vegetable cover of the park. The Quercus ilex prevails around the top and on the slopes of the Northern slope.

In the bottom the vegetation is wooded with pines of Alep an Underwood of mountains of Phoenicia. We also find a rich variety of aromatic plants like thyme or rosemary. Under the solid mass the steppe of esparto is spread out. In the park five sources of fresh water.

The fauna of the park is characteristic of the Tunisian Dorsal with certain rare species, like the gazelle of mountain, the Barbary sheep, or the striped hyena.

We also meets wild boar, the jackal, the fox and the wildcat, the hedgehog but also of the raptors like the peregrine falcon and the Egyptian Vulture which nest in abrupt cliffs, the golden eagle and the eagle of Bonelli, the Short-toed Eagle and the Eurasian Sparrow hawk, the birds of prey like young partridges and the sparrows and several species of reptiles and batrachians. The park of Bou Hedma contains several archeological sites. Lunch

# Excursions

# Departure from Djerba

# Tataouine Chenini

Military camp in the beginning, being used as prison then, Tatouine is today charming a small very animated city. Its market, twice-weekly being held Monday and Thursday, is picturesque. We find there beauty products like henna, kohl, of the products of basket making, the old jewels and especially of very beautiful weavings. The garden of the seat of the Delegation is interesting: it is a small museum where one finds tree trunk fossil, néo Punic inscriptions, fragments of statues, Corinthian capitals...

Tataouine is the starting point of the circuits of discovered ksours.

To arrive there, you will leave Djerba via the Roman roadway. In Médenine you will have a pause coffee and the visit of Ksar, continuation to Tataouine, to visit the market of spices. Way to Chénini: Attractive site, which was a Berber refuge. The

ksar is perched on a rock peak and the houses, downwards, are dug in the walls of the piton. One finds there oil mills very old of which some would

go up in XIe century, an underground mosque and a troglodytic bakery.

### Lunch at the 3<sup>\*</sup>hotel Sangho Tataouine.

After that, you will discover the charm of Ghomrasne and some Ksours, these famous attics of corn Bedouins, which are varied in the Tunisian South.

<u> Matmata – Toujene</u>

For this one day excursion, you will leave the island of Djerba via the Roman roadway to visit the Berber villages of Toujene and Matmata, with the lunar landscape formed by the habitats troglodytic of vertical type. It is an area mountainous and arid but the charm of its nature will take to you.

#### Toujene

Toujene is a small Berber village of the south Tunisian is located has 25 km of Matmata on a road in direction of Médenine, it is a village of mountain which is divided into two shares by a valley.

#### Matmata

It is difficult to imagine more spectacular site, a place where the local color can be expressed with

more force. Matmata is in a basin strewn with innumerable tiny hills. This landscape of nipples, burned by the sun, has something of lunar. The mountains surrounding the place are stripped. By far, the ground appears sifted of infinity of craters. Dug in nipples, the dwellings however belong to the type of habitat troglodytic of plain. The central excavation, which acts of court, a diameter of ten meters and a depth of six or seven meters, comprises a tunnel which leads to the hillside. This type of habitat is adapted to the climate: the underground dwellings remain fresh, when it is hot outside, and protect from the great cold in winter. Hotels of high standing are carried out in this troglodytic

architecture. They make the amazement of the visitors dazzled by their high unexpected level of comfort, by their originality and their perfect adaptation to the climatic data. In Matmata, which extends at the northern end of the chain of Dahar, we find many of other very interesting sites: Tijma, Haddège, Tamezret with its dry stone-built houses fixed on the mountain, Zeraoua where beautiful bakhnougs are manufactured, Béni Aïssa where the

type of habitat troglodytic is thorough on a high level of perfection, Téchine...

Douz - Tamerza

This excursion will bring you via Douz, the star of the desert, towards Tamarza, Chebika, and Mides the three superb oases of mountain.

While arriving, the symphony of the streaming of the water cascade will enchant you and

the panoramic sight of the palm trees and the desert will allure you. Before arriving at these places, on your way, you will pass by Gabes the maritime oasis, the Berber village with the habitats troglodytic Matmata, and the immense lake salted Chott El Jerid...

Finally you will return to the island of the Jerba dreams via the vat.

## Folkloric party

Thanks to this evening you will live an exceptional traditional atmosphere.

Installed under your Berber tent, you will be enchanted by the marvelous spectacles (belly dancer, juggler of earthenware jars, bousaâdia.)

A variety of the delights of the local dishes will be served to you. And it is not all; you will have even the advisability of

following an illustration of the trades of our ancestors and

of tasting original preparations (Tabouna, olive oil.). It will be certainly an unforgettable evening.

# Park Djerba Explore

A village, a park with crocodiles and a museum dedicated to the inheritance, the culture, the art and the history of the island of Djerba

Enter into the world of Djerba Explore. A unique project in the Mediterranean basin: with an innovative concept. A touristic complex where culture and history, relaxation and leisure is in harmony with wish!

The complex is integrated within a reconstituted village djerbien: streets and lanes, porches and arcades, roofed passageways, shaded small squares and coffee terraces, point out the typical urbanity of Djerba whose inhabitants from time immemorial accommodated the newcomers. The village is thought like a place of meetings, around a central place bordered of coffees, restaurants and shops. The life is articulated around the splendid museum Lalla Hadria, of a circuit centred on the discovery of the inheritance djerbien (Djerba Heritage) and, more astonishing on this island, the largest farm of crocodiles of the Mediterranean basin. The whole in the middle of vegetation: mixing that from the region and the borders of the desert.

Quad and Caravane à la carte

We propose excursions in quad to you which enable you to discover Jerba differently.

Unique opportunity, you will have the leisure to visit places, cities or villages which you would not see along usual excursions.

A guide will accompany you throughout your excursion to ensure the good unfolding of the circuit and so that you can profit a maximum of your ballade.

Bulla Regia/Chemtou

Bulla Regia is known for his dwellings, of which a score has, is the subject of a release, dated from the reign of the Roman emperor Hadrian even if the most specific installation seems dated from IIIe-IVe century. They offer the characteristic equipped with an underground

stage, reproduction of less width of the higher stage which is on one level with the street. Chemtou quoted numide then Roman is known for its marble with the multiple colors.

<u>Dougga/ Le Kef</u>

Way to Dougga and visit; On the fertile valley of the Medjerda, Dougga, formerly called Thugga is the most

impressive Roman city in Tunisia. The well-preserved Theatre, grandiose Temple of Celeste, theatres, and the many baths reflect the high standard of living of its 5,000 inhabitants.

Declared as UNESCO World Heritage, Dougga

has a large capitol, a forum, and triumphal arches honouring Severus Alexander. Underfoot are mosaic floors and superbly paved city

streets. In a strange silence, you will still sense the pulse of roman life during the second and third centuries. You can still see the grooves of chariot wheels in the streets and visit the public latrine, a cosy arrangement of twelve seats where people would chat as they went about their business.

Continuation towards Kef visits of the Table of Jugurtha:

The Table of Jugurtha is not other than a plate of 80 hectares, at an altitude of 1200

meters. Its cliffs, falling to peak, made of this place an ideal refuge to escape the enemy. Its access is not possible that by the Northern face, by a narrow way, dug in a fault. Traces of shoes are still visible on these stones. All indicates that this place was a primitive city. We will discovers there galleries used as attics, of the remainders of dwellings, a fortification, basins dug in the rock to retain rainwater and a sufficient vegetation to nourish the cattle. All let's think that the man can live there in autonomy during a long period.
